**Dedicated to the rescue, rehabilitation, and rehoming of purebred and other exceptional cats. Our mission is to educate pet owners, and shelters about our breeds, and to stand by as a safe alternative to sending a cat to an animal shelter. We place our cats with Forever Families who will give them the proper care and love they deserve. We carefully match cats with their families by evaluating each cat's personality, temperament, and special needs. Then we determine the best fit for both the cat and the new family.**
